BlindWine® provides everything you need to host a wine tasting party for 12. From the invitations and thank-you notes to the scorecards and coveted gold medal, we've thought of everything so you don't have to.

It works like this - As the party host, you determine the type of wine your guests should bring by indicating the region, year and price range on your customized BlindWine® invitations. Once your guests arrive, cover each wine bottle in a BlindWine® bag. Now it's time to play. Your guests will taste and score the wines using a very easy-to-follow BlindWine® scorecard. This is a great way to learn more about wine. Once all of the scores are in and the lowest-rated and highest-rated wines have been determined, you get to present the winner with the acclaimed gold medal. Do I hear rematch? Before the evening is over, your friends will already be planning their own BlindWine® party.
